

Air Wall

Data Sheet

Product Variations

M3 Air is a brand new range of high performance, beautifully designed, and practical temporary event structures.

Light weight, easy to setup and remove each of the indoor range comes in its own storage bag and includes everything that is required for use. The fans provided are designed to be low noise. Creatively designed, M3 Air products are the worldwide leader in inflatable structures.

The M3 Air Wall range includes:

M3 Air Wall System

The wall system includes a range of flat event walls that easily zip together to offer small, medium and larger meeting areas. Creatively designed, easily and quickly installed an offering good sound insulation, the M3 Air event walls offer a fantastic temporary solution.

1. Full wall 2.4m long x 2.4m tall and 0.3m wide
2. Half wall 1.2m long x 2.4m tall and 0.3m wide
3. Zipped corner post 0.3m x 0.3m and 2.4m tall
4. Curved wall 2.4m x 2.4m and 0.3m wide

M3 Air Cubic Wall system

The cubic wall system provide instant spaces by offering space and stability, these walls are designed to be used either singular or multiples, either free standing or zipped together providing a multitude of layouts and creative spaces.

1. 3m long x 2.4m tall with a 0.9m return either end
2. 6m long x 2.4m tall with a 1.8m return either end
3. 9m long x 2.4m tall with a 2.7m return either end
4. 12m long x 2.4m tall with a 3.6m return either end

The M3 Air range of structures can be tailored to suit your event needs, we offer branding with options including direct print and replaceable printed covers.

Product Enhancement

Branding

Branding can be applied permanently to any of the Inflatable structures as screen print or digital printing at the source of production.

Temporary branding can be added as vinyl or Dacron adhesive panels at any stage. Please note that not all artwork is suitable for printing on our structure range. It is advised sample artwork be supplied in an .eps format so we can advise the best solution. Full replaceable covers are available to the range. These can be branded and printed to ensure your structure matches your brand.

Bespoke colours and materials

All our structures are manufactured in ripstop nylon and reinforced PVC. As standard they are made in white and grey. Although a full colour range is available, this may alter lead times and costs.

Other materials are available and we are happy to discuss specific needs / projects and will advise on what we feel is the most appropriate solution. All fabrics are tested for performance of flammability for textiles used in the construction of marquees and similar textiles structures to standards: BS 7837:1996 / BS 5438:1989.

Lighting

As an optional extra we can provide internal LED lighting systems which will transform the look and feel of your inflatable structure. The ambient lighting effect can be either one colour change or mixed to produce your perfect environment.

Trussing

The M3 Air range of inflatable structures have been designed to be used as free standing products, trussing is not required to use them, however trussing can be added to enhance the environment. Full internal trussing systems are available to compliment your event structure. These can be used to hang PA equipment or other lighting options.

Doors & Closures

All of the M3 Air range comes complete with zip in/ out doors as standard. M3 Air also offers full aluminium double door systems. These provide fire safety openers and are fully lockable which provides increased security. The door systems are bespoke and made to be installed perfectly into our doorways.

Flooring

Flooring is available upon request and is offered to suit all event needs. We offer simple snap lock flooring. This offers light weight flooring and ideal for grass and concrete. It can be further enhanced by adding a finishing carpet.

We also offer aluminium / ply flooring which offers a professional and stable finish in any conditions. This type of flooring can take a number of finishers including carpet and wooden flooring.

Modularity

The entire M3 Air Range of Domes and Cubes can be joined together as the doorways are all standard. These can be jointed directly or by incorporating a space tunnel, these add an atmospheric walkway between the jointed structures and come in a range of lengths.

Transport

By its nature an inflatable structure packs down to considerably less than its inflated size. The largest of our range packs down to less than 2M³ which makes the structures ideal to store and use again. Each product will be supplied in its own storage bag and will be easily transported in an out of any venue.

Warranty

M3 Air offers a 12 month warranty on the manufacture process and materials if the user manual and install guides are followed. Due to the nature of weather and installation conditions, M3 Air reserves the right to carry out an onsite inspection and report which way the warranty will be met.
